**Meeting Rotary's Challenge  
In the Space Age**

**Careers Night**

Teaching and nursing attracted the biggest number of listeners when Millicent Rotary Club organised speakers for its "Careers Night" held at Millicent High School.

Over a wide variety of professions and trades, the discussions were very successful and the library was packed with parents and students. It was the first "careers night" organised by the Vocational Committee. Rotary Club President Dunc Williams welcomed parents and consultants, the latter being Rotarians and others.

The biggest single group sought information on teaching as a career while other main groups heard about medical services, the public services, nursing and office and shop work.

**Sixth Rotary Wool Show**

The wool clip for charities nominated by local graziers continued its steady increase this year, when the Millicent Rotary Club held its annual Wool Show. For the first time, the fleeces were displayed in the large expanse of the Youth Hall. Use of the Youth Hall provided a more satisfactory display of the fleeces, and there was adequate room for people to move among the wool laden tables. Doug Mitchell, Council Chairman, Rotary President Dunc Williams and Rotarian Ralph DeGaris, view the Champion Fleece of the Show exhibited by W.P. Thorpe.
